

Satellite radio provides me with a variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. The major radio boradcasters have become a monopoly with the FCC's relaxation of the ownership rules and the only relief at the moment is satellite radio. I find XM's traffic channel very useful and timely and hope the FCC will continue to encourage free enterprise and diversity.
